"BUSTED" BANKS.

The Sixth National and the Lennox Hill Banks of New York City Close Their Doors.

NEW YORK, Jan. 30.—The Sixth national bank, at Broadway and Thirty-third street, which recently passed into new hands, has been closed by United States Bank Commissioner Hepburn. Mr. Hepburn would not speak of the bank's affairs last night, but some idea of the trouble was gleaned from one of the persons whom he consulted.

"The commissioners attention was first called to the actions of the present management," he said, "by finding in the market a lot of securities which the bank has been holding in its vaults. In getting hold of banks and killing their securities there is generally some scheme at the back, but so far as a cursiory glance has disclosed, this scheme was confined purely to getting control of the three banks—the Sixth National, the Lennox Hill, and the Equitable. It looks a good deal as though they were trying to make a dollar appear in three different places at the same time. What the loss will be I cannot say.

"It will depend a great deal upon the value of a lot of securities which are in a vault down town and also upon whether certain checks which came in yesterday are paid. I do not think that they were able to do further than to cause the closing of the other two banks. They will probably have to go next. It is intimated in this statement the methods of the men interested have been something like those of the "Young Napoleon" who bought railroads on tick and paid for them out of the funds he found in their treasuries."

The clearing house has suspended the Sixth National bank of New York.

The Lennox Hill bank, of this city, shut its doors at 11:30 a. m., being unable to meet its obligations.

STRUCK A MATCH

In the Cellar and Instantly a Fatal Explosion Followed.

OSWEGO, N. Y., Jan. 30.—Frank Carey, one of the proprietors of Carey Bros.' restaurant, was awakened by a noise in the cellar of the building early this morning. He hurriedly dressed and going into the cellar to investigate, struck a match.

Instantly an explosion occurred, which jarred the neighboring buildings and the whole place was enveloped in flames and Carey managed to get into the street with his clothing in flames and a passer by wrapped a coat about him and smothered the fire. He was horribly burned and will die. The building was burned. The cause of the explosion is a mystery.

MUSKEGON, Mich., Jan. 30.—Early yesterday morning a fire which originated on the third floor of the Muskegon city flouring mill, destroyed the greater part of the main building. The entire plant was valued at $27,000. There were about five hundred barrels of flour on hand, besides 2,000 bushels of corn, 3,000 bushels of wheat, and 11,000 bushels of oats. The mill had a capacity of 175 barrels a day. The insurance amounted to $19,000.

HARRISON'S HOUSE ROBBED.

Burglars Enter the Home of the President at Indianapolis.

INDIANAPOLIS, Jan. 30.—President Harrison's house, on North Delaware street, was entered last evening by burglars. They got away with jewelry and other property to the value of $1,200. The house is occupied by H. S. Frazer and family, but much of the president's property is still in the place. The burglars secured an entrance by climbing to a second-story window. Most of the loss will fall on the Frazers.

Patrick Maloney Meets Death in a Collision in New York State.

BINGHAMTON, N. Y., Jan. 30.—A collision occurred on the Erie railroad at Owego, twenty miles west of this city, at 12 o'clock last night. Train No. 12, an east bound passenger was standing in the station and train No. 14, the Wells and Fargo express, also east bound, dashed into the rear sleeper, wrecking it.

Patrick Maloney, of Owego, was putting his little girl on No. 12, when the collision occurred. He was caught between the cars and killed in the sight of his daughter. His body has not been taken out. Four others are injured. Maloney was a prominent democratic politician of Owego, and was the state committeeman for this district.

GRAND RAPIDS, Mich., Jan. 30.—Alexander McKenzie was convicted last night of the murder of his wife November 25. The murder was wanton and unprovoked, and much satisfaction is expressed at the verdict. Judge Grove immediately sentenced him to prison for life.

LINCOLN, Neb., Jan. 30.—Horace R. Chase, the superintendent of the government Indian school at Genoa, Neb., was found guilty yesterday, in the United States, of keeping false books and making false vouchers to the government of provisions and other articles purchased for the use of the school, and was sentenced to pay a fine of $1,500 and costs of prosecution, and stand committed until paid.

KANSAS CITY, Mo., Jan. 30.—Christopher D. Woods, treasurer of Switchmen's union No. 4, of this city, has disappeared with $1,000 of the union's money. He was a switchman in the employ of the Atchison, Topeka and Santa Fe railroad.

KANSAS CITY, Mo., Jan. 30.—Arthur Blake, the alleged adopted son of Arthur Graham, the millionaire cattle dealer of Kinsley, Kan., on trial at Kinsley yesterday for attempting to blackmail Gorham, pleaded guilty to the charge. Sentence was reserved.

Word was received here to-day of the death of Mrs. J. M. Boone, wife of the well-known master mechanic, who served in the Pittsburg shops in this city for many years. The lady died of pneumonia, at Chicago, her home, Tuesday night. Mrs. Ellen Wilson, of this city, was summoned to her bedside, but arrived too late.

MISS PRIM—O! it was awful. I didn't mind their stealing the silver and my jewelry, but when one of those burglars entered my room and took a flashlight photograph of me in my—my—my curl papers, with a ko dak, I nearly died with mortification.

A HIGH OLD TIME!

The National House of Representatives in an Uproar--The Galleries Enjoy the Fun Hugely.

WASHINGTON, Jan. 30.—Expectation of the continuation of yesterday's battle caused the galleries of the house to be filled to-day. When Speaker Reed rapped the house to order at noon, the gallery reserved for men was packed, while a large number of ladies were in the other galleries.

Mr. Breckinridge, of Kentucky, sounded the preliminary war cry of the democrats. The clerk in reading the journal omitted the names of those not voting on the question of consideration yesterday. This brought Mr. Breckinridge to his feet, shouting for recognition.

He demanded that the names of those not voting should be recorded in accordance with the custom. The speaker assented to the request, and the correction was made. When the reading of the journal had been completed, several members were on their feet. The speaker recognized Mr. McKinley, who moved that the journal be approved, and demanded the previous question.

Mr. Blanchard, of Louisiana, called at the top of his voice so as to be heard above the hubbub that began. He said he rose to a question of privilege; the speaker refused to recognize him, and put the question on the approval of the journal amid shouts of disapproval from the democrats.

Mr. Springer, of Illinois, one of the democratic leaders, managed to make himself heard before the speaker made his decision on the vote. He said that he moved that the house adjourn before Mr. McKinley's motion was put, and the speaker was obliged to put the question of adjournment to the house. Mr. Bland, in a stentorian voice, demanded recognition, while a dozen democrats shouted for the same privilege. Finding that he was not recognized, Mr. Bland cried that he wanted to make a correction in the journal, a right that every representative had.

The speaker's further refusal to recognize Mr. Bland called forth shouts, loud and long from the democrats, and Mr. Bland shaking his first in the direction of the speaker's desk, made some unintelligible remarks at the top of his voice. They were clearly uncomplimentary to Mr. Reed.

It is understood what Mr. Bland said was: "You are the meanest tyrant that ever presided over a legislative body, and I denounce ——."

After the confusion had become less intense, the speaker put Mr. Springers motion for adjournment. Mr. McKinley demanded the ayes and nays and they were ordered. The roll call disclosed a strict party vote, and the motion was defeated by 160 nays against 142 ayes. Mr. McKinley demanded the previous question on the approval of the journal, and the ayes and nays were ordered on demand of Mr. Carlisle.

While these proceedings were going on, scouting parties had been sent out after recreant members and little squads of them began to come in the scene on the floor presented nothing unusual during the roll-call, except that the democrats refrained from voting.

When the roll call was finished, it was evident that a quorum had not voted. The speaker then followed his proceeding of yesterday by reading a list of names of democrats present who had not voted, and declared that a quorum was in the house, and that the previous question was sustained.

Jeers and groans came from the democrats, cheers and hand clapping from the republicans. Mr. Springer rose to a question of privelege, but the speaker refused to recognize him, because the clerk had already begun to call the roll on the motion of Mr. McKinley, to approve the journal.

Mr. Breckinridge, of Kentucky, with vehement gestures, recited his remarks of yesterday, denouncing Mr. Reed's action as revolutionary. All this time the roll call was going on and the democrats enlivened the proceedings by shouting, "Question!" "Question!" "What's the question?"

Mr. Carlise was finally recognized, and the roll call was suspended. Mr. Carlisle said there was so much confusion that nothing could be heard; and to this the speaker replied that it seemed to him that the disorder came from the gentlemen who were demanding order.

A cheer from the republicans echoed his remarks. Mr. Reed then stated that the question was on the adoption of Mr. McKinley's motion to approve the journal and the roll call was proceeded with, the democrats, as before, abstaining from voting.

VIENNA, Jan. 30.—Striking glass workers to the number of 500 at Goblentz, Bohemia, made an attack upon the factory in which they had been employed and effecting an entrance, destroyed all the machinery. The police attempted to quell the disturbance and a conflict between them and the rioters ensued. Two of the men were killed and a number of others injured.

Muncie Promotion.

Mr. J. M. Evans has resigned as auditor of the Muncie. J. D. Williams, car accountant and traveling auditor, has been appointed his successor. Mr. Evans connected himself with the road in 1878 and has been a first-class man.

By this change the duties of car accountant devolve upon Mr. E. A. Wales, who is the present cashier. Mr. Wales is invaluable in a railroad office and is perfectly able to accomplish the additional task. Besides he is always pleasant and accommodating and has a host of friends to wish him good success, which will surely come well merited.

THERE is a curiosity along the Fairmont, Morgantown and Pittsburgh Railroad, about six miles above town, worth noticing, says the Morgantown (Pa.) *Post*. Two sycamore trees, standing about ten feet apart, are joined together by a limb fifteen inches in diameter, and it's dollars to doughnuts which tree it started to grow from. They are the only Siamese twins in this vicinity.

IN 1888 nearly 3,000,000,000 bricks were manufactured in twelve cities of the United States. About 80,000,000 were made in Pittsburg.

A TEARFUL widow at Charleston, W. Va., obtained an order for $4 worth of groceries from the Poor Commissioners. Next day the provisions were spread as the refreshments at her wedding banquet.

Chas. W. Sersford and F. C. Chalfant, of Bluffton, were registered at the Aldine to-day.

DEATH AMONG PIONEERS.

Two Old and Prominent Citizens Pass From Earth--Hon. Neil McLachlin and Mr. Henry Schone.

The death of Neil McLachlin, sr., at 9 o'clock last night adds another to the long list of our pioneer citizens who have, within the past year, gone to their last resting place.

Born at Saltcoats, Scotland, June 25, 1819, and very early in life thrown upon his own resources, Mr. McLachlin showed ample ability not only to make his way in the world, in a material sense, but also to gather from reading and travel a fund of information which made him an intelligent man.

He gained his skill as an iron worker in Napier's ship building yards near Glasgow.

Coming to the United States in 1847 and engaging in business for a time in Cincinnati and Mount Vernon, Ohio, he removed to Fort Wayne in the fall of 1855, establishing here the first boiler shop in this state.

His many sterling qualities, joined to an energy and thrift which made every business venture successful, together with a probity which won for him the respect and confidence of the community, he was regarded as one of our representative citizens and most successful business men.

Thoroughly imbued with that love of native land, which is so characteristic of the sons of Scotland, he made frequent and long visits to the land of his birth, and was among the earliest of Lincoln's consular appointments, serving as United States consul to Leith, (Edinburgh) from March 27, 1861, to '65.

In the demise of this man, who has performed his life's task so well, the community is bereft of one whose death leaves a place hard to supply. There are many who grieve with the family.

Besides a widow there are a number of children, among them being William and John, of this city; Neil, jr., of Duluth; Alexander, of New York; Mrs. C. L. Olds and Nannie, an unmarried daughter who lives at home.

The deceased was a charter member of the Caledonian society, which he joined in 1858. The funeral will occur Saturday at 2 p. m. from the late residence, 66 West Creighton avenue, and will probably be conducted under the auspices of the society.

Mr. McLachlan was one of the old members of the First Presbyterian church, and Rev. D. W. Moffat will preach the funeral sermon.

DEATH OF HENRY SCHONE.

This morning, at 8 o'clock, at his home, 227 East Washington street, occurred the death of Mr. Henry Schone, one of the most prominent German citizens of Fort Wayne. The cause of his death was pneumonia. He had only been seriously ill for a few days and the announcement of his death was sudden and sad news to his large circle of friends.

Mr. Schone was born in Germany and came to this country in the year 1840, settling in this city. He at first went to work on the old canal, and afterwards started a general store on West Main street, near Fred Eckert's meat establishment, which he conducted for a number of years. He retired from business some years ago.

Mr. Schone was seventy-seven years old. He leaves a wife and two children, Mrs. Prepsing and Mr. Henry H. Schone, of the undertaking firm of Schone & Wellman. He was an active member of the St. Mary's Catholic church and had been prominently connected with societies of that religious denomination.

HOPPED IT OUT.

The B. of L. E. Dance--The O. N. O. and Crow Club Have a Time.

Last night Division No. 12, Brotherhood of Locomotive Engineers, gave a grand annual ball at Princess rink, which was very largely attended. Prof. Reineke's orchestra furnished the music, having in the music gallery twelve of his best men.

The ladies auxilliary spread the feast, which was superior to any of the bon ton banquets that could be prepared.

The following committee was on the floor: Ed. McDonald, chief; assistants, F. A. Murphy, R. M. Jones, C. S. Conklin, Wm. Beck, J. C. McCarty, J. R. Anderson, J. M. Dickson, Joseph Shelley, Wm. P. Morris.

THE O. N. O'S.

This very popular society organization had its annual hop last evening. The spacious parlors and hall of the Standard club were used for the purpose. Prof. Reineke's orchestra furnished music, and Seidel was the caterer. The grand march was by Mr. Ed Cartwright and Miss Mary Farnan, who were each presented with a bouquet of calla lillies at the close. There were about fifty couple present. The committees were as follows:

Committee on Arrangements—Pete Baltes, chairman; M. Etchy, A. C. Gocke, G. Steinacker.

Committee on Reception—E. J. Manok, A. C. Gocke, G. App, A. A. Reinhart, H. C. Kramer.

Floor Managers—J. G. Kramer, Chief; Pete Baltes, M. Etchy, Ed. Nohe, G. Steinacker.

CROW CLUB.

The members gave a private masquerade at the cheerful hall in Siemon's block opposite the Rich hotel last evening which can be classed among the most enjoyable successes of the club. Henry Barner's orchestra furnished the music. The costumes consisted of the grand, the ridiculous and the simple. The entire affair was one of immeasurable delight to all who were so fortunate as to be present. The committees were as follows:

On arrangements—Wm. H. Meyer and George Winbaugh; on inspection—Frank Rhodes and Frank Krebs. The party unmasked about 12 o'clock.

AMATEUR DRAMA.

The Stage Performances of the Standard Club Inaugurated.

Last Monday night the Standard club, the strongest social organization in the city, inaugurated their dramatic entertainments for the season, by presenting upon their own stage and with their own scenery the drama, "Flies in the Web."

The cast was well chosen, the principals being Misses Hattie Rosenthal, Laura Oppenheimer and Ray Meyer and Messrs. Max Pottlitzer, Benj. Cohen, and Seymour Hirsh, all of whom acquitted themselves in a way to show their keen conception of the parts.

The entertainment was succeeded by a social hop. The club felt elated with the success of the first stage feature of the season and already arrangements have been commenced to put on amateur minstrels.

SHAME ON SHREMPSIE.

A Wife-Beater Before the Mayor--Another Assault.

John Shrempsie was a prisoner before the mayor this morning on the charge of beating his wife.

The prosecuting witness was present. She testified that her husband had been cruel; that he refused to furnish her means and when she found money hid under the door-step he became enraged. He choked her and used violence. It was upon information from the neighbors that Officer John Trautman locked the man up.

The mayor gave Schrempsie a severe reprimand and sent him over to jail for thirty-five days.

JONES SLUGGED ROGGE.

Jones, whose surname is John, attacked August Rogge and for the fistic diversion was found guilty of assault and battery and sent by Mayor Harding to Castle Viberg. Officer O'Ryan made the arrest at the depot.

IT is believed that the largest farm under cultivation in this country belongs to Col. John W. Bookwalter, of Ohio, at one time the Democratic candidate for Governor of his State. The farm is on the Nebraska line south of Beatrice, and the Kansas City, Wyandotte and Northwestern Road runs through it. It contains nearly thirteen thousand acres, covering twenty square miles, all under an excellent state of cultivation.

Not only shortens labor and lessens pain attending it, but greatly diminishes the danger to life of both mother and child if used a few months before confinement. Write to The Bradfield Regulator Co., Atlanta, Ga., for further particulars. Sold by all druggists.

THE Buddhists in Burmah do not consider the question of expense in beautifying their temples. Here is the description of the new vane of a pagoda at Rangoon: The vane is about three feet by one and a half feet broad, and thickly crusted with precious stones and lovely fans of the red Burmese gold. One ruby alone is worth 6,000 rupees, and there are several hundred rubies upon this beauti' thing. On the tip of the iron rod which works the vane is a richly carved and gold ornament called the Semboo. It is somewhat egg-shaped and a foot in height, tipped by an enormous diamond, encircled by many smaller ones crusted on like barnacles. All over this exquisite oval object are similar clumps of diamonds, no other stone being used for this part.

You want to make money, of course. Well, go to Oregon and raise apples. Listen to an Oregon farmer: "In my orchard I have a few trees of green ings, from which I gathered thirty-eight boxes of apples, which netted me at the orchard 70 cents per box, or $7.50 each for the four trees. Taking seventy trees to the acre, which is the usual number planted, this gives a nice little return of $525 per acre. Now to find out what can be accomplished on ten acres, it is only necessary to multiply a little, and it will be seen that apples pay bigger and better returns with less labor than any other produce, not excepting walnuts or oranges."

QUEENSLAND, Australia, lays claim to the greatest and richest gold mine in the world. It is called Mt. Morgan, and will this year pay to its owners not less than $6,000.000, with the promise of a great increase when more completely developed. The gold obtained from it assays 99.3 pure, a test which is believed to be without parallel. The original owner of this property bought it for a shilling an acre and sold it at about one pound sterling per acre, or in all for about $3,000. It is now valued, judging by the price of the company's shares, at $50,000,000.

RUSSIA is increasing her field artillery. Hitherto each brigade had six batteries of eight guns each, but now each brigade will have eight batteries of eight guns, or a total of sixty-four guns, instead of forty-eight as hitherto.

THE women of the Russian telegraph service are raising a great outcry in the press against the hardship of the law in force in Russia that they may only marry telegraphists, and that, too, only those who are engaged at the same station, the official idea being that they thereby, in case of need, would be able to take the place of their husbands. A young Russian woman writes to a Novgorod paper: "I have, therefore, if I do not choose to forfeit my situation, first to fall in love with an electrical swain, then to manage that he falls in love with me; next to arrange that he is transferred to my station. This is a hard task for a girl who is riveted fourteen hours every day to her apparatus, and does not wish to lose her pittance of 720 rubles a year."

After diphtheria, scarlet fever, or pneumonia, Hood's Sarsapilla will give strength to the system, and expel all poison from the blood.

SENATOR INGALLS is as fond of literature as he is of politics, and is said to double his Congressional salary by his magazine and newspaper articles. His pen is very prolific, and everthing he writes is easily marketable.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

A NEW YORK judge set aside a verdict of $50,000 damages for "loss of a wife's affection," and in doing so remarked that "the finding was probably the result of an acute attack of that species of mental hysteria to which juries in sexual cases are so peculiarly liable.

What is a cold in the head? Medical authorities say it is due to uneven clothing of the body, rapid cooling when in a perspiration, &c. The important point is, that a cold in the head is an inflammation of the lining membrane of the nose, which, when unchecked, is certain to produce a catarrhal condition—for catarrh is essentially a "cold," which nature is no longer able to "resolve" or throw off. Ely's Cream Balm has proved its superiority, and sufferers should resort to it before that common ailment becomes seated and ends in obstinate catarrh.

A common remark. If you take Tutt's Pills you can eat anything you like, and feel no bad effects. They act specifically on the liver, stomach and bowels, causing a free flow of gastric juice, which is essential to good digestion and regular bowels.

Don't Fear Now.

Rev. R. Burts, Manata, Fla., says: "Tutt's Pills are held in high repute as a Liver Regulator. I hardly know how we could get along without them. Chills and fever have lost their dread. Our people take one or two doses of the Pills, and follow it with fifteen grains of quinine, divided in three doses during the day. The chill never returns."

A HEADLESS CONDUCTOR.

How Jimmie Welsh's Ghost Frightened the Midnight Trainmen.—The Day's Railroad News.

Trainmen on the Lake Erie and Western railroad, between Findlay and Fostoria, are greatly disturbed over what they claim is the ghost of a dead freight conductor. The conductor was killed one night last November, about eight miles east of Findlay, by his train breaking into two sections in such a manner that he was thrown to the track from the car on which he was standing, and beheaded by the wheels before the train could be controlled.

This accident occurred near the little town of Arcadia, at a point where dense woods nearly arch the track above the rails, and here it is, the trainmen assert, the ghost of the mutilated conductor—who was known in life as Jimmie Welsh—makes its appearance nearly every night as the midnight train going west from Sandusky reaches the spot where Welsh met his fate. The engineer and other officials of the train say that when these woods are reached an object looking like a headless man comes walking slowly out toward the track with a lantern in its hand which it waves backward and forward, as if searching for something. The trainmen are positive that it is the ghost of Welsh hunting for the head which was severed from the body by the car wheels. They insist that this object is plainly visible until the engine passes by, when the phantom slowly turns and fades away among the trees.

Two crews have already abandoned this run, and have been transferred to other divisions of the road on account of this alleged ghost; and the engineer who brought this train through last night was so terrified over encountering this headless conductor that when he reached Findlay it was with difficulty that he was persuaded to stay on his engine until relieved at Lima. He said that he would not pass through another such experience for any sum of money. No other trains are annoyed by this ghostly conductor, but this is explained by the fact that no other crew passes the spot where poor Welsh lost his life at the time of night when he was decapitated by the wheels of his train. The story has thoroughly alarmed all the employes of the road, and unless the spirit of Jimmie Welsh is appeased in some way this midnight train will have to be abandoned.

is undoubtedly caused by lactic acid in the blood. This acid attacks the fibrous tissues, and causes the pains and aches in the back, shoulders, knees, ankles, hips, and wrists. "STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER Co., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

THE mementos of an old love affair are always interesting. Romance never dies. The flavor of it clings to the materials which aided in carrying it on. And so the finding of a begrimed and badly battered metallic box containing a locket, a bundle of parchment letters, and a faded ribbon on the revolutionary battle-field of Stone Arabia sets the imaginative mind at work to weaving a romance of the days of '76. One side of the locket was engraved with a monogram. The letters were evidently written by a gifted woman living in London in 1778-9 to her betrothed, who was a Capt. Lowe, probably with the English forces in America. The last letter told of the failing health of the writer and of her wish to see her lover again. It was received just before the battle of Stone Arabia. Did the lover return to England, leaving the case behind, or was he killed in battle, and is the package of letters so carefully preserved the abiding proof that his true love's love was returned?

A NEW substitute for coffee may turn up in a berry known as "gaertnera." The British Consul at Reunion says that at one time he received many letters from merchants in England asking for information respecting a shrub then called "mussaenda," the discovery of which, it had been said in some commercial journals, would deal a severe blow to the coffee and chicory trade. About two years ago a rumor was spread that the berry of this shrub could be advantageously employed as a substitute for coffee and chicory. It grows to about ten feet high, has very few leaves, and its branches are wide apart. The berries do not grow all along the branches, as is the case with coffee, but in bunches at their extremities. At present it is only met with in the mountains, where it grows wild. It might be produced on an extensive scale, but with its inferiority in fragrance and color it could hardly compete with coffee.

BORN and raised in a Chinese tea-drinking establishment, a Chinaman in Philadelphia says the only way to make tea is to pour the boiling water on the leaves, stirring them briskly at the same time. It should be served after allowing merely time to settle. The whole operation takes only a minute.

The "Shadows of a Great City," which comes to the Temple to-night, is a play in which tragedy and comedy are well blended, and the numerous strong situations keep the audience in a quiver of alternate excitement and laughter. The scene in the prison on Blackwell's Island, with its revolving mechanism; the struggle on a lonely rock in the channel, and the scene in the house of the capitalist, are of vivid interest. JOHN BLACK, JR.,

Made General Foreman of the Stony Island Nickel Plate Shops--The Wabash Connecting Link.

John Black, jr., late foreman in the Cincinnati, Hamilton and Dayton shops at Lima, Ohio, has been appointed general foreman of the New York, Chicago and St. Louis (Nickel Plate) Railroad shops, located at Stony Island, near Chicago. The appointment takes effect February 1.

It is stated on good authority that Milton Shirk and C. H. Brownell, who went to New York to confer with the directors of the Wabash railroad in reference to the building of the connecting link between the main line and Eel River division, received no encouragement in the matter.

President Ashley declared the company to be in no condition to undertake the construction of a new road, and also announced himself in favor of building the cut-off at Logansport if it were built at all, thus utilizing the thirty miles of the Eel River track from Roann to Logansport, which otherwise would have to be practically abandoned. President Joy, of the Eel River Railroad company, also favors Logansport. If this report is true, and it comes from a reliable source, Wabash and Peru are no longer in the contest.

POSTAL CLERKS TO ORGANIZE.

They Want a Vacation With Pay, Shorter Hours, Etc.

The postoffice clerks in this city have decided to organize and co-operate with clerks in many other cities in an appeal to congress.

They hope to obtain by the concerted movement, eight hours labor a day instead of ten, and some times more, as they now have to abide by; also relating to salaries, etc.

The clerks will shortly circulate a petition among our citizens, getting the signatures of such persons as favor the following:

1. That they may receive pay from July 1, 1889, at the rate recommended at that time by their postmasters under provisions of the classification bill.

2. That they may be granted a vacation of thirty days each year, with pay.

3. That their day's labor may be fixed at eight consecutive hours.

4. That a sufficiently large appropriation be made to meet future demands in promotion and increase of force.

HIDE AND SEEK.

Hide Thieves Do the Hiding and Officers Do the Seeking.

Last night the hide warehouse of Weil Bros. & Co., on East Columbia street, was entered by thieves, who got away with stock amounting in value to several hundred dollars.

The fellows got access through a rear window to the cellar, where their operations could be carried on unobserved.

About fifteen beef hides and a lot of furs are among the booty.

There is no clew and it is likely to be a continuous game of seek.

THE Buddhists in Burmah do not consider the question of expense in beautifying their temples. Here is the description of the new vane of a pagoda at Rangoon: The vane is about three feet by one and a half feet broad, and thickly crusted with precious stones and lovely fans of the red Burmese gold. One ruby alone is worth 6,000 rupees, and there are several hundred rubies upon this beautiful thing. On the tip of the iron rod which works the vane is a richly carved and gold ornament called the Semboo. It is somewhat egg-shaped and a foot in height, tipped by an enormous diamond, encircled by many smaller ones crusted on like barnacles. All over this exquisite oval object are similar clumps of diamonds, no other stone being used for this part.

You want to make money, of course. Well, go to Oregon and raise apples. Listen to an Oregon farmer: "In my orchard I have a few trees of green pings, from which I gathered thirty-eight boxes of apples, which netted me at the orchard 70 cents per box, or $7.50 each for the four trees. Taking seventy trees to the acre, which is the usual number planted, this gives a nice little return of $525 per acre. Now to find out what can be accomplished on ten acres, it is only necessary to multiply a little, and it will be seen that apples pay bigger and better returns with less labor than any other produce, not excepting walnuts or oranges."

QUEENSLAND, Australia, lays claim to the greatest and richest gold mine in the world. It is called Mt. Morgan, and will this year pay to its owners not less than $6,000,000, with the promise of a great increase when more completely developed. The gold obtained from it assays 99.3 pure, a test which is believed to be without parallel. The original owner of this property bought it for a shilling an acre and sold it at about one pound sterling per acre, or in all for about $3,000. It is now valued, judging by the price of the company's shares, at $50,000,000.

RUSSIA is increasing her field artillery. Hitherto each brigade had six batteries of eight guns each, but now each brigade will have eight batteries of eight guns, or a total of sixty-four guns, instead of forty-eight as hitherto.

THE women of the Russian telegraph service are raising a great outcry in the press against the hardship of the law in force in Russia that they may only marry telegraphists, and that, too, only those who are engaged at the same station, the official idea being that they thereby, in case of need, would be able to take the place of their husbands. A young Russian woman writes to a Novgorod paper: "I have, therefore, if I do not choose to forfeit my situation, first to fall in love with an electrical swain, then to manage that he falls in love with me; next to arrange that he is transferred to my station. This is a hard task for a girl who is riveted fourteen hours every day to her apparatus, and does not wish to lose her pittance of 720 rubles a year."

After diphtheria, scarlet fever, or pneumonia, Hood's Sarsaparilla will give strength to the system, and expel all poison from the blood.

SENATOR INGALLS is as fond of literature as he is of politics, and is said to double his Congressional salary by his magazine and newspaper articles. His pen is very prolific, and everthing he writes is easily marketable.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

A NEW YORK judge set aside a verdict of $50,000 damages for "loss of a wife's affection," and in doing so remarked that "the finding was probably the result of an acute attack of that species of mental hysteria to which juries in sexual cases are so peculiarly liable.

What is a cold in the head? Medical authorities say it is due to uneven clothing of the body, rapid cooling when in a perspiration, &c. The important point is, that a cold in the head is an inflammation of the lining membrane of the nose, which, when unchecked, is certain to produce a catarrhal condition—for catarrh is essentially a "cold," which nature is no longer able to "resolve" or throw off. Ely's Cream Balm has proved its superiority, and sufferers should resort to it before that common ailment becomes seated and ends in obstinate catarrh.

A common remark. If you take Tutt's Pills you can eat anything you like, and feel no bad effects. They act specifically on the liver, stomach and bowels, causing a free flow of gastric juice, which is essential to good digestion and regular bowels.

Don't Fear Now.

Rev. R. Burts, Manata, Fla., says: "Tutt's Pills are held in high repute as a Liver Regulator. I hardly know how we could get along without them. Chills and fever have lost their dread. Our people take one or two doses of the Pills, and follow it with fifteen grains of quinine, divided in three doses during the day. The chill never returns."

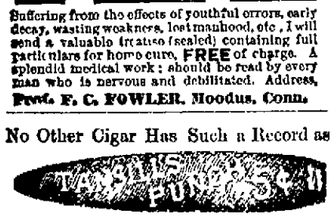
No Other Cigar Has Such a Record as



A HEADLESS CONDUCTOR.

How Jimmie Welsh's Ghost Frightened the Midnight Trainmen—The Day's Railroad News.

Trainmen on the Lake Erie and Western railroad, between Findlay and Fostoria, are greatly disturbed over what they claim is the ghost of a dead freight conductor. The conductor was killed one night last November, about eight miles east of Findlay, by his train breaking into two sections in such a manner that he was thrown to the track from the car on which he was standing, and beheaded by the wheels before the train could be controlled.

This accident occurred near the little town of Arcadia, at a point where dense woods nearly arch the track above the rails, and here it is, the trainmen assert, the ghost of the mutilated conductor—who was known in life as Jimmie Welsh—makes its appearance nearly every night as the midnight train going west from Sandusky reaches the spot where Welsh met his fate. The engineer and other officials of the train say that when these woods are reached an object looking like a headless man comes walking slowly out toward the track with a lantern in its hand which it waves backward and forward, as if searching for something. The trainmen are positive that it is the ghost of Welsh hunting for the head which was severed from the body by the car wheels. They insist that this object is plainly visible until the engine passes by, when the phantom slowly turns and fades away among the trees.

Two crews have already abandoned this run, and have been transferred to other divisions of the road on account of this alleged ghost; and the engineer who brought this train through last night was so terrified over encountering this headless conductor that when he reached Findlay it was with difficulty that he was persuaded to stay on his engine until relieved at Luma. He said that he would not pass through another such experience for any sum of money. No other trains are annoyed by this ghostly conductor, but this is explained by the fact that no other crew passes the spot where poor Welsh lost his life at the time of night when he was decapitated by the wheels of his train. The story has thoroughly alarmed all the employes of the road, and unless the spirit of Jimmie Welsh is appeased in some way this midnight train will have to be abandoned.

Rheumatism

is undoubtedly caused by lactic acid in the blood. This acid attacks the fibrous tissues, and causes the pains and aches in the back, shoulders, knees, ankles, hips, and wrists. Thousands of people have found in Hood's Sarsaparilla a positive cure for rheumatism. This medicine, by its purifying action, neutralizes the acidity of the blood, and also builds up and strengthens the whole body.

"STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

THE mementos of an old love affair are always interesting. Romance never dies. The flavor of it clings to the materials which aided in carrying it on. And so the finding of a begrimed and badly battered metallic box containing a locket, a bundle of parchment letters, and a faded ribbon on the revolutionary battle-field of Stone Arabia sets the imaginative mind at work to weaving a romance of the days of '76. One side of the locket was engraved with a monogram. The letters were evidently written by a gifted woman living in London in 1778-9 to her betrothed, who was a Capt. Lowe, probably with the English forces in America. The last letter told of the failing health of the writer and of her wish to see her lover again. It was received just before the battle of Stone Arabia. Did the lover return to England, leaving the case behind, or was he killed in battle, and is the package of letters so carefully preserved the abiding proof that his true love's love was returned?

A NEW substitute for coffee may turn up in a berry known as "gaertnera." The British Consul at Reunion says that at one time he received many letters from merchants in England asking for information respecting a shrub then called "mussaenda," the discovery of which, it had been said in some commercial journals, would deal a severe blow to the coffee and chicory trade. About two years ago a rumor was spread that the berry of this shrub could be advantageously employed as a substitute for coffee and chicory. It grows to about ten feet high, has very few leaves, and its branches are wide apart. The berries do not grow all along the branches, as is the case with coffee, but in bunches at their extremities. At present it is only met with in the mountains, where it grows wild. It might be produced on an extensive scale, but with its inferiority in fragrance and color it could hardly compete with coffee.

BORN and raised in a Chinese tea-drinking establishment, a Chinaman in Philadelphia says the only way to make tea is to pour the boiling water on the leaves, stirring them briskly at the same time. It should be served after allowing merely time to settle. The whole operation takes only a minute.

The "Shadows of a Great City," which comes to the Temple to-night, is a play in which tragedy and comedy are well blended, and the numerous strong situations keep the audience in a quiver of alternate excitement and laughter. The scene in the prison on Blackwell's Island, with its revolving mechanism; the struggle on a lonely rock in the channel, and the scene in the house of the capitalist, are of vivid interest. JOHN BLACK, JR.,

Made General Foreman of the Stony Island Nickel Plate Shops--The Wabash Connecting Link.

John Black, jr., late foreman in the Cincinnati, Hamilton and Dayton shops at Lima, Ohio, has been appointed general foreman of the New York, Chicago and St. Louis (Nickel Plate) Railroad shops, located at Stony Island, near Chicago. The appointment takes effect February 1.

It is stated on good authority that Milton Shirk and C. H. Brownell, who went to New York to confer with the directors of the Wabash railroad in reference to the building of the connecting link between the main line and Eel River division, received no encouragement in the matter.

President Ashley declared the company to be in no condition to undertake the construction of a new road, and also announced himself in favor of building the cut-off at Logansport if it were built at all, thus utilizing the thirty miles of the Eel River track from Roann to Logansport, which otherwise would have to be practically abandoned. President Joy, of the Eel River Railroad company, also favors Logansport. If this report is true, and it comes from a reliable source, Wabash and Peru are no longer in the contest.

POSTAL CLERKS TO ORGANIZE.

They Want a Vacation With Pay, Shorter Hours, Etc.

The postoffice clerks in this city have decided to organize and co-operate with clerks in many other cities in an appeal to congress.

They hope to obtain by the concerted movement, eight hours labor a day instead of ten, and some times more, as they now have to abide by; also relating to salaries, etc.

The clerks will shortly circulate a petition among our citizens, getting the signatures of such persons as favor the following:

1. That they may receive pay from July 1, 1889, at the rate recommended at that time by their postmasters under provisions of the classification bill.

2. That they may be granted a vacation of thirty days each year, with pay.

3. That their day's labor may be fixed at eight consecutive hours.

4. That a sufficiently large appropriation be made to meet future demands in promotion and increase of force.

HIDE AND SEEK.

Hide Thieves Do the Hiding and Officers Do the Seeking.

Last night the hide warehouse of Weil Bros. & Co., on East Columbia street, was entered by thieves, who got away with stock amounting in value to several hundred dollars.

The fellows got access through a rear window to the cellar, where their operations could be carried on unobserved.

About fifteen beef hides and a lot of furs are among the booty.

There is no clew and it is likely to be a continuous game of seek.

"BUSTED" BANKS.

The Sixth National and the Lennox Hill Banks of New York City Close Their Doors.

NEW YORK, Jan. 30.—The Sixth national bank, at Broadway and Thirty-third street, which recently passed into new hands, has been closed by United States Bank Commissioner Hepburn. Mr. Hepburn would not speak of the bank's affairs last night, but some idea of the trouble was gleaned from one of the persons whom he consulted.

"The commissioners attention was first called to the actions of the present management," he said, "by finding in the market a lot of securities which the bank has been holding in its vaults. In getting hold of banks and killing their securities there is generally some scheme at the back, but so far as a cursiory glance has disclosed, this scheme was confined purely to getting control of the three banks—the Sixth National, the Lennox Hill, and the Equitable. It looks a good deal as though they were trying to make a dollar appear in three different places at the same time. What the loss will be I cannot say.

"It will depend a great deal upon the value of a lot of securities which are in a vault down town and also upon whether certain checks which came in yesterday are paid. I do not think that they were able to do further than to cause the closing of the other two banks. They will probably have to go next. It is intimated in this statement the methods of the men interested have been something like those of the "Young Napoleon" who bought railroads on tick and paid for them out of the funds he found in their treasuries."

The clearing house has suspended the Sixth National bank of New York.

The Lennox Hill bank, of this city, shut its doors at 11:30 a. m., being unable to meet its obligations.

Train No. 12, an east bound passenger was standing in the station and train No. 14, the Wells and Fargo express, also east bound, dashed into the rear sleeper, wrecking it.

Patrick Maloney, of Owego, was putting his little girl on No. 12, when the collision occurred. He was caught between the cars and killed in the sight of his daughter. His body has not been taken out. Four others are injured. Maloney was a prominent democratic politician of Owego, and was the state committeeman for this district.

KANSAS CITY, Mo., Jan. 30.—Christopher D. Woods, treasurer of Switchmen's union No. 4, of this city, has disappeared with $1,000 of the union's money. He was a switchman in the employ of the Atchison, Topeka and Santa Fe railroad.

Word was received here to-day of the death of Mrs. J. M. Boone, wife of the well-known master mechanic, who served in the Pittsburg shops in this city for many years. The lady died of pneumonia, at Chicago, her home, Tuesday night. Mrs. Ellen Wilson, of this city, was summoned to her bedside, but arrived too late.

Miss Bisland—Oh! It was awful. I didn't mind their stealing the silver and my jewelry, but when one of those burglars entered my room and took a flash-light photograph of me in my—my—my curl papers, with a ko dak, I nearly died with mortification.

A HIGH OLD TIME!

The National House of Representatives in an Uproar—The Galleries Enjoy the Fun Hugely.

WASHINGTON, Jan. 30.—Expectation of the continuation of yesterday's battle caused the galleries of the house to be filled to-day. When Speaker Reed rapped the house to order at noon, the gallery reserved for men was packed, while a large number of ladies were in the other galleries.

Mr. Breckinridge, of Kentucky, sounded the preliminary war cry of the democrats. The clerk in reading the journal omitted the names of those not voting on the question of consideration yesterday. This brought Mr. Breckinridge to his feet, shouting for recognition.

He demanded that the names of those not voting should be recorded in accordance with the custom. The speaker assented to the request, and the correction was made. When the reading of the journal had been completed, several members were on their feet. The speaker recognized Mr. McKinley, who moved that the journal be approved, and demanded the previous question.

Mr. Blanchard, of Louisiana, called at the top of his voice so as to be heard above the hubbub that began. He said he rose to a question of privilege; the speaker refused to recognize him, and put the question on the approval of the journal amid shouts of disapproval from the democrats.

Mr. Springer, of Illinois, one of the democratic leaders, managed to make himself heard before the speaker made his decision on the vote. He said that he moved that the house adjourn before Mr. McKinley's motion was put, and the speaker was obliged to put the question of adjournment to the house. Mr. Bland, in a stentorian voice, demanded recognition, while a dozen democrats shouted for the same privilege. Finding that he was not recognized, Mr. Bland cried that he wanted to make a correction in the journal, a right that every representative had.

The speaker's further refusal to recognize Mr. Bland called forth shouts, loud and long from the democrats, and Mr. Bland shaking his first in the direction of the speaker's desk, made some unintelligible remarks at the top of his voice. They were clearly uncomplimentary to Mr. Reed.

It is understood what Mr. Bland said was: "You are the meanest tyrant that ever presided over a legislative body, and I denounce ——."

After the confusion had become less intense, the speaker put Mr. Springers motion for adjournment. Mr. McKinley demanded the ayes and nays and they were ordered. The roll call disclosed a strict party vote, and the motion was defeated by 160 nays against 142 ayes. Mr. McKinley demanded the previous question on the approval of the journal, and the ayes and nays were ordered on demand of Mr. Carlisle.

While these proceedings were going on, scouting parties had been sent out after recreant members and little squads of them began to come in the scene on the floor presented nothing unusual during the roll-call, except that the democrats refrained from voting.

When the roll call was finished, it was evident that a quorum had not voted. The speaker then followed his proceeding of yesterday by reading a list of names of democrats present who had not voted, and declared that a quorum was in the house, and that the previous question was sustained.

Jeers and groans came from the democrats, cheers and hand clapping from the republicans. Mr. Springer rose to a question of privilege, but the speaker refused to recognize him, because the clerk had already begun to call the roll on the motion of Mr. McKinley, to approve the journal.

Mr. Breckinridge, of Kentucky, with vehement gestures, recited his remarks of yesterday, denouncing Mr. Reed's action as revolutionary. All this time the roll call was going on and the democrats enlivened the proceedings by shouting, "Question!" "Question!" "What's the question?"

Mr. Carlise was finally recognized, and the roll call was suspended. Mr. Carlisle said there was so much confusion that nothing could be heard; and to this the speaker replied that it seemed to him that the disorder came from the gentlemen who were demanding order.

A cheer from the republicans echoed his remarks. Mr. Reed then stated that the question was on the adoption of Mr. McKinley's motion to approve the journal and the roll call was proceeded with, the democrats, as before, abstaining from voting.

Muncie Promotion.

Mr. J. M. Evans has resigned as auditor of the Muncie. J. D. Williams, our accountant and traveling auditor, has been appointed his successor. Mr. Evans connected himself with the road in 1878 and has been a first-class man.

By this change the duties of our accountant devolve upon Mr. E. A. Wales, who is the present cashier. Mr. Wales is invaluable in a railroad office and is perfectly able to accomplish the additional task. Besides he is always pleasant and accommodating and has a host of friends to wish him good success, which will surely come well merited.

THERE is a curiosity along the Fairmont, Morgantown and Pittsburgh Railroad, about six miles above town, worth noticing, says the Morgantown (Va.) *Post*. Two sycamore trees, standing about ten feet apart, are joined together by a limb fifteen inches in diameter, and it's dollars to doughnuts which tree it started to grow from. They are the only Siamese twins in this vicinity.

IN 1888 nearly 5,000,000,000 bricks were manufactured in twelve cities the United States. About 80,000,000 were made in Pittsburg.

A TARIFF widow at Charleston, W. Va., obtained an order for $4 worth of groceries from the Poor Commissioners. Next day the provisions were spread as the refreshments at her wedding banquet.

CHAS. W. Sanford and F. C. Chalfant, of Bluffton, were registered at the Aldine to day.

DEATH AMONG PIONEERS.

Two Old and Prominent Citizens Pass From Earth—Hon. Neil McLachlin and Mr. Henry Schone.

The death of Neil McLachlin, sr., at 9 o'clock last night adds another to the long list of our pioneer citizens who have, within the past year, gone to their last resting place.

Born at Saltcoats, Scotland, June 25, 1819, and very early in life thrown upon his own resources, Mr. McLachlin showed ample ability not only to make his way in the world, in a material sense, but also to gather from reading and travel a fund of information which made him an intelligent man.

He gained his skill as an iron worker in Napier's ship building yards near Glasgow.

Coming to the United States in 1847 and engaging in business for a time in Cincinnati and Mount Vernon, Ohio, he removed to Fort Wayne in the fall of 1855, establishing here the first boiler shop in this state.

His many sterling qualities, joined to an energy and thrift which made every business venture successful, together with a probity which won for him the respect and confidence of the community, he was regarded as one of our representative citizens and most successful business men.

Thoroughly imbued with that love of native land, which is so characteristic of the sons of Scotland, he made frequent and long visits to the land of his birth, and was among the earliest of Lincoln's consular appointments, serving as United States consul to Leith, (Edinburgh) from March 27, 1861, to '65.

In the demise of this man, who has performed his life's task so well, the community is bereft of one whose death leaves a place hard to supply. There are many who grieve with the family.

Besides a widow there are a number of children, among them being William and John, of this city; Neil, jr., of Duluth; Alexander, of New York; Mrs. C. L. Olds and Nannie, an unmarried daughter who lives at home.

The deceased was a charter member of the Caledonian society, which he joined in 1858. The funeral will occur Saturday at 2 p. m. from the late residence, 66 West Creighton avenue, and will probably be conducted under the auspices of the society.

Mr. McLauchlan was one of the old members of the First Presbyterian church, and Rev. D. W. Moffat will preach the funeral sermon.

DEATH OF HENRY SCHONE.

This morning, at 8 o'clock, at his home, 227 East Washington street, occurred the death of Mr. Henry Schone, one of the most prominent German citizens of Fort Wayne. The cause of his death was pneumonia. He had only been seriously ill for a few days and the announcement of his death was sudden and sad news to his large circle of friends.

Mr. Schone was born in Germany and came to this country in the year 1840, settling in this city. He at first went to work on the old canal, and afterwards started a general store on West Main street, near Fred Eckert's present establishment, which he conducted for a number of years. He retired from business some years ago.

Mr. Schone was seventy-seven years old. He leaves a wife and two children, Mrs. Prepsing and Mr. Henry H. Schone, of the undertaking firm of Schone & Wellman. He was an active member of the St. Mary's Catholic church and had been prominently connected with societies of that religious denomination.

The B. of L. E. Dance—The O. N. O. and Crow Club Have a Time.

Last night Division No. 12, Brotherhood of Locomotive Engineers, gave a grand annual ball at Princess rink, which was very largely attended. Prof. Reincke's orchestra furnished the music, having in the music gallery twelve of his best men.

The ladies auxiliary spread the feast, which was superior to any of the ten ton banquets that could be prepared.

The following committee was on the floor: Ed. McDonald, chief; assistants, F. A. Murphy, R. M. Jones, C. S. Conklin, Wm. Beek, J. C. McCarty, J. R. Anderson, J. M. Dickson, Joseph Shelley, Wm. P. Morris.

THE O. N. O's.

This very popular society organization had its annual hop last evening. The spacious parlors and hall of the Standard club were used for the purpose. Prof. Reincke's orchestra furnished music, and Seidel was the caterer. The grand march was by Mr. Ed Cartwright and Miss Mary Farman, who were each presented with a bouquet of calla lillies at the close. There were about fifty couple present. CROW CLUB.

The members gave a private masquerade at the cheerful hall in Stenson's block opposite the Rich hotel last evening which can be classed among the most enjoyable successes of the club. Henry Barner's orchestra furnished the music. The costumes consisted of the grand, the ridiculous and the simple. The entire affair was one of immeasurable delight to all who were so fortunate as to be present. The committees were as follows:

On arrangements—Wm. H. Meyer and George Winbaugh; on inspection—Frank Rhodes and Frank Krebs. The party unmasked about 12 o'clock.

AMATEUR DRAMA.

The Stage Performances of the Standard Club Inaugurated.

Last Monday night the Standard club, the strongest social organization in the city, inaugurated their dramatic entertainments for the season, by presenting upon their own stage and with their own scenery the drama, "Flies in the Web."

The cast was well chosen, the principals being Misses Hattie Rosenthal, Laura Oppenheimer and Ray Meyer and Messrs. Max Pottlitzer, Benj. Cohen, and Seymour Hirsh, all of whom acquitted themselves in a way to show their keen conception of the parts.

The entertainment was succeeded by a social hop. The club felt elated with the success of the first stage feature of the season and already arrangements have been commenced to put on amateur minstrels.

SHAME ON SHREMPSIE.

A Wife-Beater Before the Mayor—Another Assault.

John Shrempsie was a prisoner before the mayor this morning on the charge of beating his wife.

The prosecuting witness was present. She testified that her husband had been cruel; that he refused to furnish her means and when she found money hid under the door-step he became enraged. He choked her and used violence. It was upon information from the neighbors that Officer John Trautman locked the man up.

The mayor gave Schrempsie a severe reprimand and sent him over to jail for thirty-five days.

JONES STRUCK ROGGE.

Jones, whose surname is John, attacked August Rogge and for the fistic diversion was found guilty of assault and battery and sent by Mayor Harding to Castle Viberg. Officer O'Ryan made the arrest at the depot.

It is believed that the largest farm under cultivation in this country belongs to Col. John W. Bookwalter, of Ohio, at one time the Democratic candidate for Governor of his State. The farm is on the Nebraska line north of Beatrice, and the Kansas City, Wyandotte and Northwestern Road runs through it. It contains nearly thirteen thousand acres, covering twenty square miles, all under an excellent state of cultivation.

"It Disagrees with Me."

A common remark. If you take Tutt's Pills you can eat anything you like, and feel no bad effects. They act specifically on the liver, stomach and bowels, causing a free flow of gastric juice, which is essential to good digestion and regular bowels.

Don't Fear Now.

Rev. R. Burls, Mannin. Fla., says "Tutt's Pills are held in high repute as a Liver Regulator. I hardly know how we could get along without them. Chills and fever have lost their dread. Our people take one or two doses of the Pills, and three in which fifteen grains of quinine, divided in three doses during the day. The chill never returns."

No Other Cigar Has Such a Record as

A HEADLESS CONDUCTOR.

How Jimmie Welsh's Ghost Frightened the Midnight Trainmen—The Day's Railroad News.

Trainmen on the Lake Erie and Western railroad, between Findlay and Fostoria, are greatly disturbed over what they claim is the ghost of a dead freight conductor. The conductor was killed one night last November, about eight miles east of Findlay, by his train breaking into two sections in such a manner that he was thrown to the track from the car on which he was standing, and beheaded by the wheels before the train could be controlled.

This accident occurred near the little town of Arcadia, at a point where dense woods nearly arch the track above the rails, and here it is, the trainmen assert, the ghost of the mutilated conductor—who was known in life as Jimmie Welsh—makes its appearance nearly every night as the midnight train going west from Sandusky reaches the spot where Welsh met his fate. The engineer and other officials of the train say that when these woods are reached an object looking like a headless man comes walking slowly out toward the track with a lantern in its hand which it waves backward and forward, as if searching for something. The trainmen are positive that it is the ghost of Welsh hunting for the head which was severed from the body by the car wheels. They insist that this object is plainly visible until the engine passes by, when the phantom slowly turns and fades away among the trees.

Two crews have already abandoned this run, and have been transferred to other divisions of the road on account of this alleged ghost; and the engineer who brought this train through last night was so terrified over encountering this headless conductor that when he reached Findlay it was with difficulty that he was persuaded to stay on his engine until relieved at Lima. He said that he would not pass through another such experience for any sum of money. No other trains are annoyed by this ghostly conductor, but this is explained by the fact that no other crew passes the spot where poor Welsh lost his life at the time of night when he was decapitated by the wheels of his train. The story has thoroughly alarmed all the employes of the road, and unless the spirit of Jimmie Welsh is appeased in some way this midnight train will have to be abandoned.

Rheumatism

is undoubtedly caused by lactic acid in the blood. This acid attacks the fibrous tissues, and causes the pains and aches in the back, shoulders, knees, ankles, hips, and wrists. Thousands of people have found in Hood's Sarsaparilla a positive cure for rheumatism. This medicine, by its purifying action, neutralizes the acidity of the blood, and also builds up and strengthens the whole body.

"STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

THE mementos of an old love affair are always interesting. Romance never dies. The flavor of it clings to the materials which aided in carrying it on. And so the finding of a begrimed and badly battered metallic box containing a locket, a bundle of parchment letters, and a faded ribbon on the revolutionary battle-field of Stone Arabia sets the imaginative mind at work to weaving a romance of the days of '76. One side of the locket was engraved with a monogram. The letters were evidently written by a gifted woman living in London in 1778-9 to her betrothed, who was a Capt. Lowe, probably with the English forces in America. The last letter told of the failing health of the writer and of her wish to see her lover again. It was received just before the battle of Stone Arabia. Did the lover return to England, leaving the case behind, or was he killed in battle, and is the package of letters so carefully preserved the abiding proof that his true love's love was returned?

A NEW substitute for coffee may turn up in a berry known as "gaertnern." The British Consul at Reunion says that at one time he received many letters from merchants in England asking for information respecting a shrub then called "mussaenda," the discovery of which, it had been said in some commercial journals, would deal a severe blow to the coffee and chicory trade. About two years ago a rumor was spread that the berry of this shrub could be advantageously employed as a substitute for coffee and chicory. It grows to about ten feet high, has very few leaves, and its branches are wide apart. The berries do not grow all along the branches, as is the case with coffee, but in bunches at their extremities. At present it is only met with in the mountains, where it grows wild. It might be produced on an extensive scale, but with its inferiority in fragrance and color it could hardly compete with coffee.

Born and raised in a Chinese tea-drinking establishment, a Chinaman in Philadelphia says the only way to make tea is to pour the boiling water on the leaves, stirring them briskly at the same time. It should be served after allowing merely time to settle. The whole operation takes only a minute.

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

COFFEE, COFFEE—Rio, Java and Roasted Coffee.

There has been little change in the Coffee Market the last three months. It is too high yet. The clique has control of the market and keeps prices up. We still sell our best Rio at 20c. lb. This we are enabled to do in consequence of our large purchases and selling direct to our customers—in this way saving the profit of the jobber and wholesale merchant.

TEAS, TEAS—Young Hyson, Oolong and Japan.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.

The soldiers' monument commissioners met yesterday, to dispose of accumulated business. Among new matters considered was an addition to the instructions issued to artists who will offer designs for the figure of liberty which is to crown the monument. The commissioners included in the additional instructions the rule that all designs must symbolize American ideas. This was done because European ideas of a figure symbolical of liberty are different from those in this country. Bertholdi put a torch in liberty's hand; Architect Barnie Schlentz gives her wings and a wreath. In America she is usually represented with a sword and shield.

The "Shadows of a Great City," which comes to the Temple to-night, is a play in which tragedy and comedy are well blended, and the numerous strong situations keep the audience in a quiver of alternate excitement and laughter. JOHN BLACK, JR.

Made General Foreman of the Stony Island Nickel Plate Shops—The Wabash Connecting Link.

John Black, jr., late foreman in the Cincinnati, Hamilton and Dayton shops at Lima, Ohio, has been appointed general foreman of the New York, Chicago and St. Louis (Nickel Plate) Railroad shops, located at Stony Island, near Chicago. The appointment takes effect February 1.

It is stated on good authority that Milton Shirk and C. H. Brownell, who went to New York to confer with the directors of the Wabash railroad in reference to the building of the connecting link between the main line and Eel River division, received no encouragement in the matter.

President Ashley declared the company to be in no condition to undertake the construction of a new road, and also announced himself in favor of building the cut-off at Logansport if it were built at all, thus utilizing the thirty miles of the Eel River track from Roann to Logansport, which otherwise would have to be practically abandoned. President Joy, of the Eel River Railroad company, also favors Logansport. If this report is true, and it comes from a reliable source, Wabash and Peru are no longer in the contest.

POSTAL CLERKS TO ORGANIZE.

They Want a Vacation With Pay, Shorter Hours, Etc.

The postoffice clerks in this city have decided to organize and co-operate with clerks in many other cities in an appeal to congress.

They hope to obtain by the concerted movement, eight hours labor a day instead of ten, and some times more, as they now have to abide by; also relating to salaries, etc.

The clerks will shortly circulate a petition among our citizens, getting the signatures of such persons as favor the following:

1. That they may receive pay from July 1, 1893, at the rate recommended at that time by their postmasters under provisions of the classification bill.
2. That they may be granted a vacation of thirty days each year, with pay.
3. That their day's labor may be fixed at eight consecutive hours.
4. That a sufficiently large appropriation be made to meet future demands in promotion and increase of force.

HIDE AND SEEK.

Hide Thieves Do the Hiding and Officers Do the Seeking.

Last night the hide warehouse of Weil Bros. & Co., on East Columbia street, was entered by thieves, who got away with stock amounting in value to several hundred dollars.
